

Hosting a Successful Meeting with

CTI MEETING TECHNOLOGY

...(in only 10 steps)

<https://www.ctimeetingtech.com>

ONE SINGLE PLATFORM

cOASIS is an all-in-one platform to manage the whole meeting lifecycle. That means that a single login allows admins to manage every part of their event with a few clicks, and attendees can easily manage all their files from a single place.

 Self-service tools including session building

 Robust dashboards

 Collect and manage all meeting content

 Create and assign sessions

 Manage reviewers

 Communicate with speakers

 ePoster gallery

 10,000+ configuration options according to your branding

SIMPLIFIED CONTENT MANAGEMENT

Scientific events mean a large number of submissions. Manage abstracts, presentations, and ePosters seamlessly within our platform. Automatically assign reviewers and put the accepted submissions into the right sessions for a curated event program.

Multiple media file types supported

Program planner and itinerary builder

Multi-step notifications to simplify the submission process

Fully customizable forms

Multiple presentation management options according to your event's size and needs

STREAMLINED MEETING PROGRAM

An attractive program is one of the selling-points of your event, but it consists of many moving parts. CTI's Program Management Software offers a comprehensive solution to streamline the entire program management process, from planning to post-meeting analytics.

-  Track and assign easily
-  Automatically detect conflicts
-  Manage logistic requirements for your sessions
-  Easy scheduling
-  Share options

INTERACTIVITY TOOLS

Text and video chat

Q&A

Networking

One of your main goals as an organizer is to keep your audience engaged. Whether you're hosting an onsite, hybrid, virtual event or a webinar, interactivity tools can be of great help to keep your participant's attention.

STREAMING, RECORDING, AND AI-POWERED FEATURES

Increase the reach of your meeting by livestreaming your sessions. We take care of it or integrate with your preferred third-party to ensure a seamless process. Expand your event's lifespan with on-demand content, now with AI-powered features available.

**Live-streaming on
event virtual platform**

**Record sessions for on-
demand access (opportunity
for monetization)**

**AI-Powered features: easy
search, translations, live
captions,...**

COMPREHENSIVE ANALYTICS

Data is the cornerstone of every event. Leverage CTI's detailed insights to identify parts that need to be improved and host better meetings in the future.

Easy reporting

Seamless integration with business intelligence tools (PowerBI, Tableau, Dundas,...)

Insights into content consumption

Segmentation possibilities

One-click custom reports

COMMUNICATION TOOLS

Communicate with participants directly from the platform and stay on top of submissions.

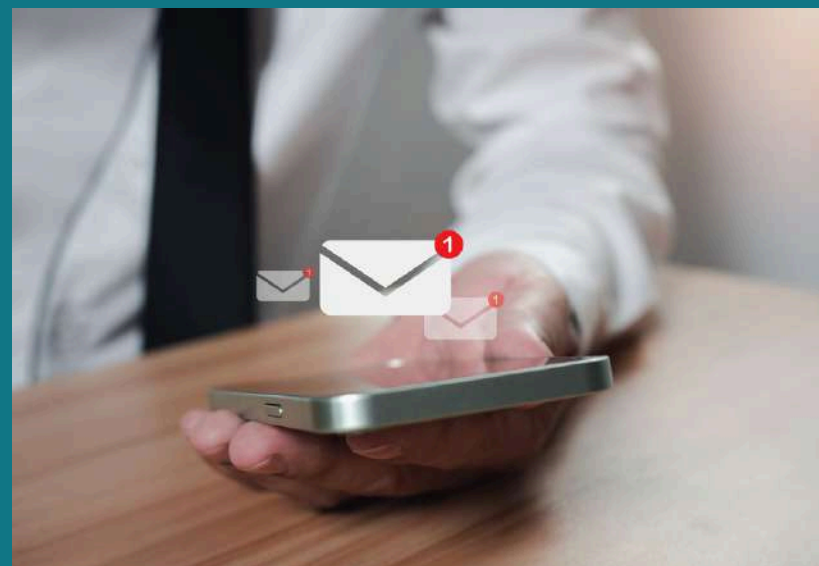

Fully customizable
templates

Easy reminders

Time-saving

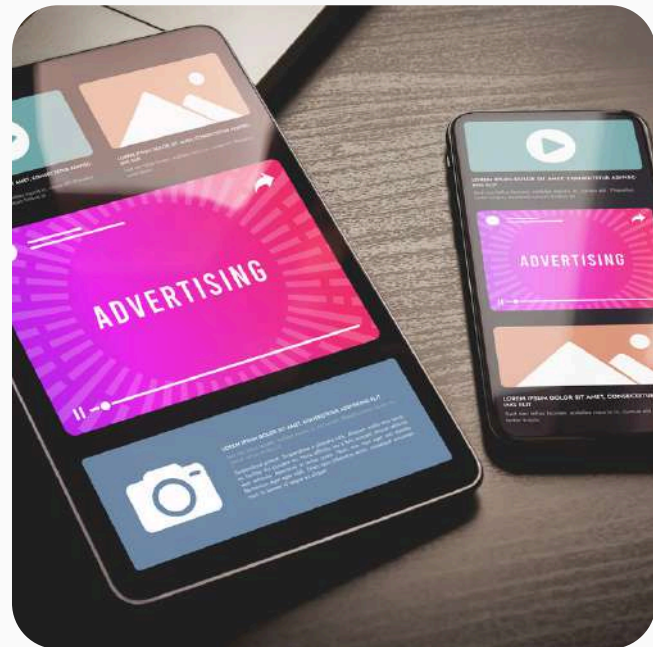

Multi-step notifications

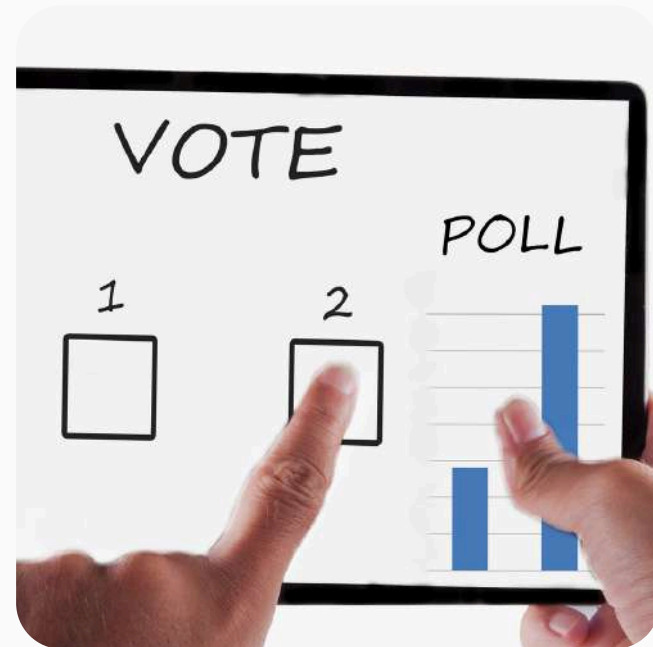

Campaigns overview

EXHIBITOR & SPONSOR VISIBILITY

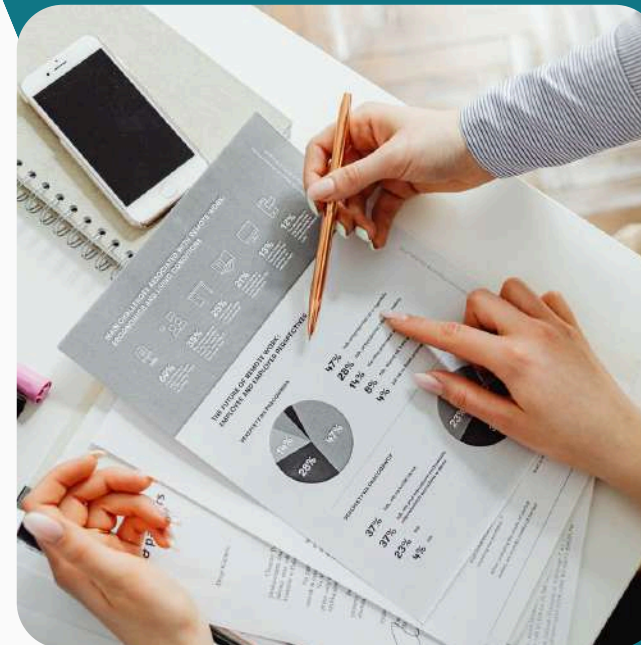

Offer tiered opportunities for exhibitors and sponsors to get visibility. Virtual customizable booths for an engaging experience also online.

Banners (static and rotating) and sponsored symposia

Polling and e-mail/in-app messages available

Lead generation statistics

Custom 2D and 3D booths with chat feature included

Individual and group chat (offline)

ONSITE MANAGEMENT

Planning an in-person event can be overwhelming: working with a large number of submissions, managing multiple speakers, communicating with participants,...Our software helps organizers plan the onsite part of their meeting, whether it is fully in-person or hybrid.

-  Secure access and navigation
-  Scalable platform to ramp up for the largest conferences
-  Cloud-based system to easily access files from any location
-  Self-service Portal for submitters
-  Quickly monitor presentations' status and notify submitters
-  Integrated with Abstract & Program module, Presentation management module and virtual platform
-  Multiple file types allowed
-  ePoster gallery with a responsive design

EXPERT SUPPORT

We know that our clients are capable of managing top-notch events. But a bit of help is always welcome! Whether you want us to assist you with certain parts of your event or with the whole workflow, the CTI team is always ready to lend a hand every step of the way.

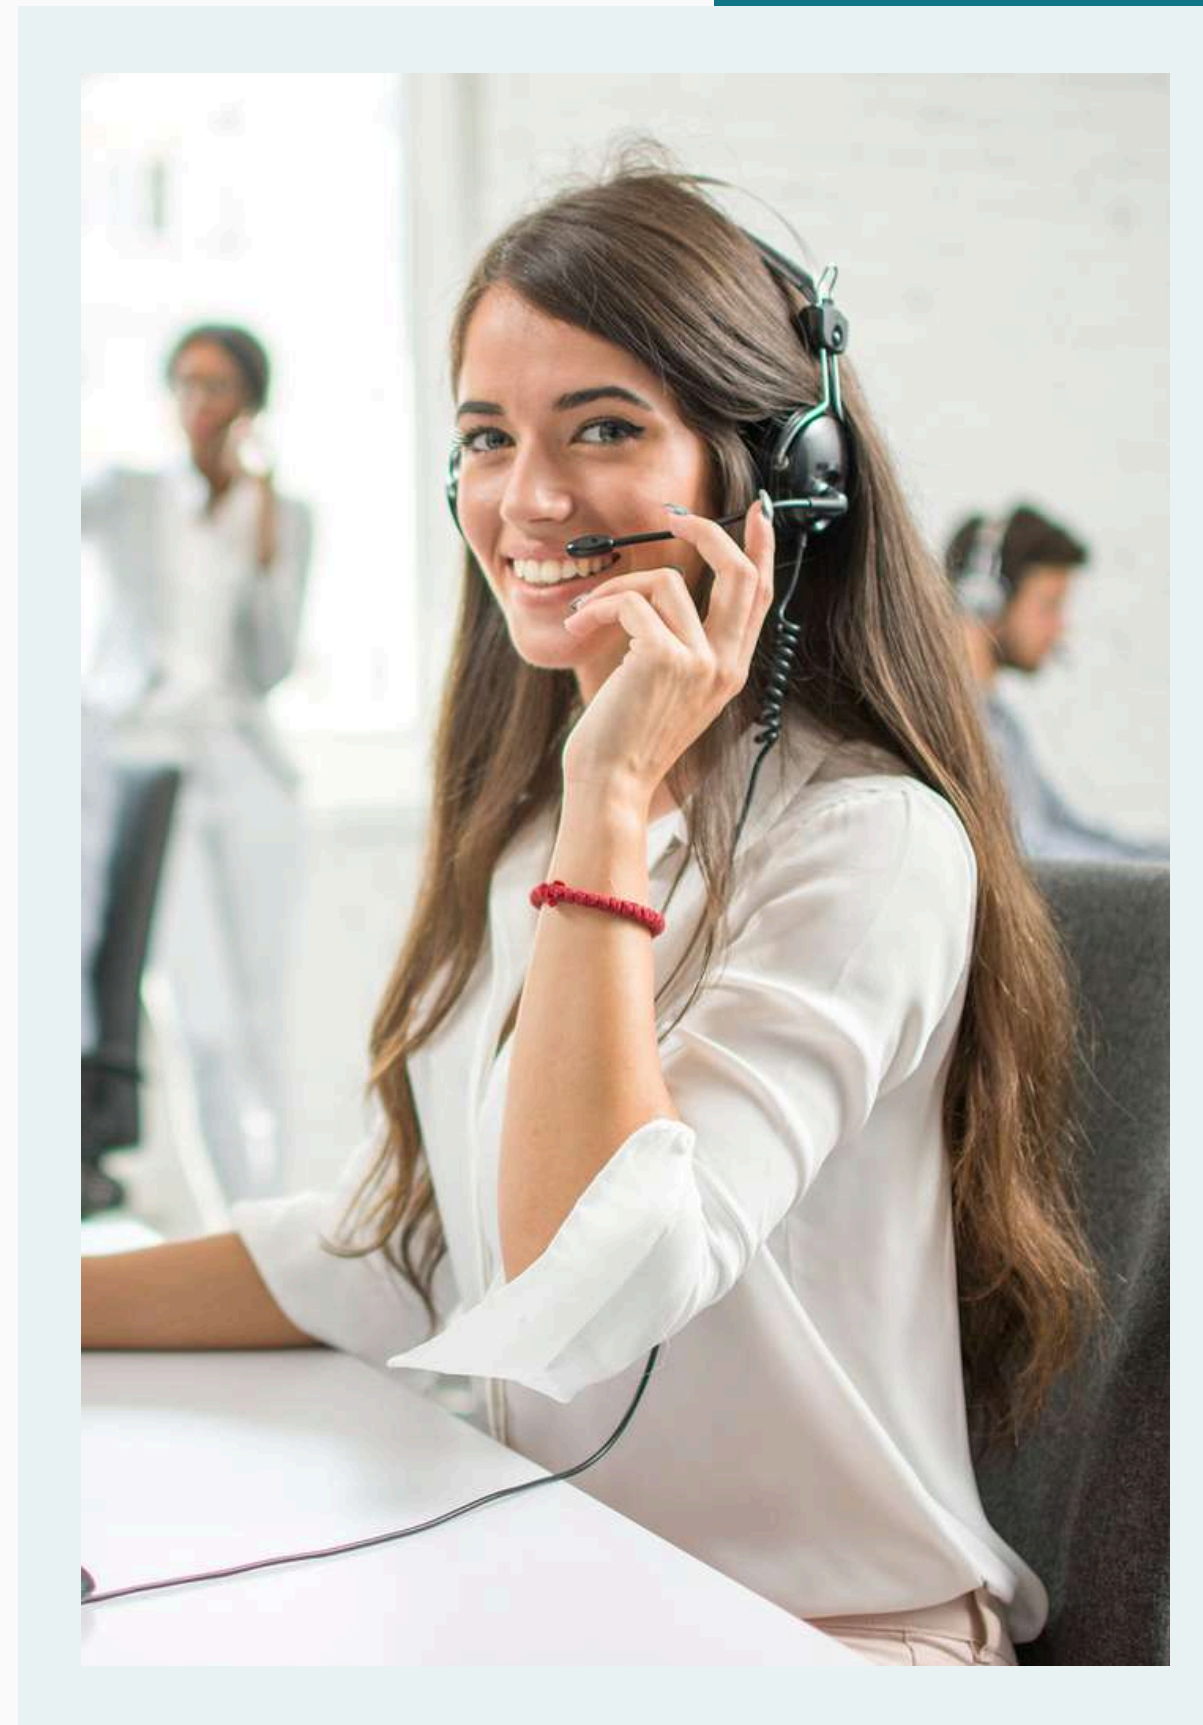

Project management from beginning to end
